

Program Analyst, District Department of Environment.

This position is located in the District Department of the Environment (DDOE), Urban Sustainability Administration, this position will support coordination within the agency, among sister agencies, and with the regulated community to implement new waste management requirements related to construction and demolition waste, electronic waste, organic waste, and expanded polystyrene and non-recyclable food service ware. Responsibilities will include regulated stakeholder engagement, program and policy development, and tracking and reporting of private sector waste hauling.

This position will support the following activities:

- Assist in the coordination of the new waste management requirements related to construction and demolition waste, electronic waste, expanded polystyrene and other food service ware, tracking, and reporting of private sector waste hauling.
- Assist in the engagement of the public and regulated community in development of necessary regulations for new waste programs.
- Coordinate with District agencies including DPW, DGS, and DCHA on city government waste programs.
- Engage with the private sector, major institutions, DOES, DSLBD, and other stakeholders on issues related to District-based job and business growth in the waste industry.
- Support various efforts and programs that drive innovation in waste in the District.

Applications due: Aug. 1, 2015. Apply
