## TERRA EXPANDS “DONE WITH IT” MAIL-IN ELECTRONICS RECYCLING PROGRAM

NASHVILLE, Tenn. – Infinite Electronics Recycling (IER) has joined TERRA to provide electronics recycling options for residents of Ohio, Pennsylvania and West Virginia.

By joining TERRA (The Electronics Reuse & Recycling Alliance) and its mail-in recycling program [Done with IT](#), IER will help drive awareness about the environmental and health effects of electronic waste (e-Waste), allow consumers to sustainably recycle their used electronics and provide secure data destruction services to more than 13.4 million residents in 140 counties from their certified recycling facility located in Weirton, WV.

“Only certified recyclers with either an [R2](#) or [e-Stewards](#) certification like IER can be trusted to securely and sustainably process used electronics,” said Steven Napoli, Founder of TERRA. “They adhere to rigorous standards and make continuous investments in best-practices to mitigate the dangers to human health and the environment associated with the improper disposal of e-Waste.”

According to the EPA, e-Waste is the fastest growing solid waste stream. It is comprised of discarded electrical or electronic devices, including used electronics, destined for reuse, resale, salvage, recycling or disposal. While e-Waste represents just 2% of America’s trash, it accounts for 70% of the toxins entering the waste stream, and when improperly disposed of, releases toxic compounds contaminating the air, soil, and water.

“Providing easy and affordable access to electronics recycling was an opportunity we were eager to support,” said Dick Weaver, CEO of IER. “We are excited to help TERRA build its nationwide network of certified recyclers to provide these essential services to businesses and consumer coast-to-coast.”

With the addition of IER, Done with IT now serves more than 20.4 million residents of Georgia, Indiana, Kentucky, Ohio, Pennsylvania, Tennessee and West Virginia.

“We expect Done with IT will continue to grow and serve more than 100 million by the end of the year,” Napoli added.

###

### **About TERRA-The Electronics Reuse & Recycling Alliance**

*TERRA is dedicated to eliminating hazardous e-Waste from entering the waste stream and contaminating the air, land and water by diverting used electronics to the care of Certified Recyclers to maximize reuse and the recycling of natural resources. For more information visit <http://www.jointerra.org>. [Facebook](#) / [LinkedIn](#) / [Twitter](#)*

### **About Infinite Electronics Recycling (IER)**

Infinite Electronics Recycling, LLC is a complete recycler of electronics for commercial, institutional, and individual needs. Infinite is committed to minimizing environmental impacts, managing health & safety risks and complete & effective data destruction associated with electronic device recycling.
