## FOR IMMEDIATE RELEASE

### TOTAL RECLAIM ANNOUNCES NEW OWNERSHIP

**Kent, WA (September 9, 2022)** – Total Reclaim, Inc., a leading provider of recycling services in the Pacific Northwest announced today that it is under new ownership. Bobby Farris has acquired a majority interest in the company. Mr. Farris has been the Chief Executive Officer of Total Reclaim and its subsidiary, EcoLights NW, for the past three years and brings to the company 25 years of experience in managing electronics recycling, appliance recycling and universal waste recycling companies. Mr. Farris acquired the shares in the company previously owned by Craig Lorch and Jeffrey Zirkle. Mr. Lorch and Mr. Zirkle no longer have any interest in the company.

“When I agreed to join the company in 2019, my goal was to restore confidence in the Total Reclaim and EcoLights brands for our employees and our customers. Thanks to the hard work and perseverance of our entire team, I feel that goal has been achieved and it is time to move the company forward independently and in an ownership capacity with complete separation from prior company management”, Farris stated. “I am excited about the future of the company, and I am eager to lead the team into a new phase of growth and prosperity.”

*For over 30 years, Total Reclaim, Inc. has provided responsible recycling solutions for thousands of organizations throughout the Pacific Northwest. The company utilizes innovative techniques and advanced technologies to provide environmentally sound recycling and reuse solutions of hard-to-handle materials such as: consumer electronics, domestic and commercial appliances, HVAC units, refrigerant gases and batteries of all chemistries and types. The company also collects and recycles mercury bearing fluorescent lamps through its subsidiary, EcoLights NW LLC. The company remains committed to developing programs and expanding services to help protect the environment through the proper end-of-life management of regulated waste materials.*
