

Wisetek appoints Peter Doscas as Vice President of Global Sales

5th July 2023: Wisetek, a global leader in advanced IT asset disposition (ITAD), data destruction, technology reuse, and manufacturing services, has appointed Peter Doscas as Vice President of Global Sales, effective immediately. As part of his new role, he will oversee Wisetek's sales operations across international markets.

Peter has over 25 years of experience in senior sales roles. His most recent position was as Director of Sales for South-East and West Territories for Progress Software, a publicly listed technology company in the United States. He has previously served as Director for Americas Storage Sales with IBM and as Vice President of Enterprise Solutions Sales with Pitney Bowes. He has also held senior sales roles with Gerber Technology and the India-based start-up MarketsandMarkets.

Peter holds an Executive MBA from Harvard Business School and a Bachelor's Degree in Business Administration and Computer Science from St Michael's College in Vermont.

Sean Sheehan, CEO of Wisetek, said: *"Wisetek is delighted to have a sales executive of Peter's caliber leading our Global Sales operations. I believe Peter's experience will prove invaluable as Wisetek continues its rapid global growth trajectory. In particular, his experience in the US market, where we have a significant operational and client presence, will prove to be extremely valuable to the company. Peter and his team will make a significant, positive contribution to the business as we continue to grow and expand into new markets around the world."*

Wisetek has grown exponentially since it was established by Sean Sheehan in 2007 and has expanded its international footprint to include facilities in Ireland, the UK, the USA, the Middle East, and Thailand, including a new facility opened in Northborough, Massachusetts in 2022.

Wisetek is a company focused on environmental sustainability and committed to the principles of the Circular Economy. The company bases its entire business process on protecting the environment by operating a Zero Landfill Policy and reducing the amount of electronic waste going into landfills. Embedded in all Wisetek processes is the commitment to reusing, repairing, refurbishing, and recycling existing materials and avoiding unnecessary waste.
