FOR IMMEDIATE RELEASE

CAMCORP NAMES NEW PRESIDENT

Lenexa, Kansas, July 22, 2019 -- CAMCORP, a manufacturer of high-performing air pollution control and pneumatic conveying equipment, is proud to announce the addition of Tony Thill as the new President of CAMCORP, Inc. effective July 1, 2019. Thill succeeds, Mike Milberger who stepped down in April of this year to explore new opportunities, but will continue to serve as a consultant for CAMCORP Manufacturing, Inc.

Thill has 20 years of successful experience as a leader in the dust collection and filtration industries both domestically and internationally. "Tony will be a great asset to the company," says Joseph Whelan, President, Scheuch USA, Inc. "I am very excited to have him on board due to his proven track record of growing businesses." Scheuch USA, Inc. is the parent company of CAMCORP.

Thill will be responsible for driving profitable growth and technological innovation at CAMCORP. "CAMCORP is a highly respected name in our industry as a leader with great technology and products," Thill says. "I am excited to be able to work with this team to continue to innovate and grow our business."

Thill has been involved in securing four filter media patents and is a member of the American Filtration Society. He is a graduate of The University of Kansas and serves as President of the NOVA Center, Inc. Board of Directors.

About CAMCORP

CAMCORP dust collection and bulk material handling solutions can be standard or modified to fit any application. With nearly three centuries of combined experience, our experts have tackled every application and realize there isn't a one size solution fits all. Passionate, hard-working employees and in-house manufacturing experts take pride in and stand by their work. Not only do we design, build, and support reliable air pollution control and bulk material handling equipment, we also build trust in all that we do. Air filtration and pneumatic conveying needs are ever-changing. At CAMCORP, we promise to continue to find new, affordable solutions for your clean air and bulk material handling challenges. CAMCORP becoming a member of the Scheuch Group is just one way to honor that promise. North American customers have local access to highly-respected European air pollution control and bulk material handling system technology.
