FOR IMMEDIATE RELEASE

Joshua Burns Appointed as Recycling Equipment Manufacturing, Inc's Vice President of Sales

Priest River, Idaho Dec 3, 2019 – Recycling Equipment Manufacturing (REM), a leading provide of OEM recycling, beverage destruction and material handling equipment has announced the appointment of Joshua Burns as Vice President of Sales. In collaboration with the REM executive team, the key new role focuses on maintaining and enhancing existing client relationships while pursuing new accounts and business development.

“Josh has been a longtime valued employee with REM and it was a natural progression for him to take on this leadership role within the company’s executive management” stated Mark Blankenship, REM’s President.

““With over fifteen years of success selling to the C-Suite in waste management and recycling industries, and strategic leadership experience, he was the obvious choice to lead our sales efforts in not just meeting but exceeding our company objectives for 2019 and beyond. In addition, Josh and his team will play a critical role in representing the needs of waste management, and recycling industries, that will shape the products and services we deliver in the future.”

“I am excited about being part of the REM leadership team,” says Mr. Burns. “Their unparalleled commitment to providing quality equipment and customer support has always been in complete alignment with my personal and professional philosophy. We have a strategic and innovative vision for the company, and I’m thrilled to be a part of this continued growth.”
