FOR IMMEDIATE RELEASE

**Alan Ross Machinery Corporation Appointed
Exclusive North American Dealer for Aymas Machinery**

NORTHBROOK, IL - April 4, 2023 - Alan Ross Machinery Corporation, a leading supplier of new and used machinery for the scrap processing and recycling industry, is proud to announce its new partnership with Aymas Machinery, one of the recycling industry's fast growing manufacturers of high-quality recycling equipment. This strategic alliance designates Alan Ross Machinery Corporation as the exclusive dealer for Aymas Machinery's products across North America.

The collaboration between Alan Ross Machinery Corporation and Aymas Machinery aims to provide North American customers with seamless access to world-class recycling equipment and solutions. This partnership also enables both companies to expand their reach and deliver exceptional customer service to the broader North American market.

Alan Ross Machinery (www.alanross.biz), headquartered in Illinois, is a trusted source for scrap processing and recycling equipment for over 60 years. Ross has a large in-stock inventory of machinery, and specializes in buying, selling, and brokering equipment for various recycling applications. With extensive industry experience, Alan Ross Machinery Corporation provides customers with unparalleled expertise, support, and unique solutions.

Aymas Machinery (www.aymasmakina.com), founded in Turkey, has earned a global reputation for designing and manufacturing robust, energy-efficient, and cost-effective scrap processing and recycling equipment. Their product line includes balers, shears, shredders, and briquetting machines, among others. Aymas Machinery's commitment to innovation and quality ensures that their equipment meets the highest international standards and exceeds customer expectations.

For more information about Alan Ross Machinery Corporation and the availability of Aymas Machinery products in North America, please visit www.alanross.biz or contact their sales team at (847) 480-8900.
