MSS Announces Relocation to New State-of-the-Art Facility in Nashville

Nashville, TN – MSS LLC, a global leader in the manufacturing of sensor-based sorting technology for the recycling and waste management sector, is thrilled to announce its official relocation to a brand-new facility at 1101 Menzler Road, Nashville, TN 37210.

This exciting move marks a significant milestone for the company. “This new space not only allows us to streamline our operations and increase our manufacturing output, it also enhances our ability to showcase our cutting-edge optical sorting technologies,” said Felix Hottenstein, MSS Sales Director.

Besides a larger manufacturing space, the facility also features expanded test center and demonstration areas which allow for more extensive product testing and validation. Clients will get the opportunity to experience MSS’ innovative solutions firsthand during live demonstrations, showcasing the versatility and effectiveness of their advanced technology and to gain a better understanding of how MSS’ solutions that meet their specific needs.

MSS has also launched its new website, enhancing user experience and providing easier access to information about our products and services. For more information or to schedule a visit to the new facility, please contact MSS at www.mssoptical.com.

About MSS LLC
