NEWS RELEASE

Kessler Consulting, Inc. welcomes Ashley Evans

TAMPA, FLORIDA (January 20, 2017) — *Tampa-FL based Environmental Consulting firm Kessler Consulting, Inc. is pleased to announce the hiring of Ashley Evans, PE, LEED® AP.*

Mitch Kessler, President of Kessler Consulting, announced today that Ashley Evans has joined the Kessler team, bringing with her 16 years of solid waste experience. Evans, a Professional Engineer and LEED Accredited Professional, has a robust portfolio of experience, including a wide range of projects specializing in solid waste, storm water, energy, and remediation markets. She has a proven track record managing operational analyses of landfills and transfer stations, facility permitting, compliance monitoring/reporting/remediation, performing feasibility and rate studies, and developing and implementing collection assessments and master planning programs.

“KCI is excited with the additional layer of services Evans will be able to provide to our clients. Her PE will allow us to offer even more comprehensive consulting services.” Don Ross, KCI Director of Operations

Evans, a graduate from University of Florida, BS in Environmental Engineering, and University of North Carolina, MBA in Business Administration, joins Kessler after serving in the roles of Project and Client Manager. Prior to her move to Tampa and Kessler, Evans lived in Jacksonville with her husband and young daughter. Evans is active in several national industry associations, including SWANA, APWA, ISWA, USGBC, and Engineers without Borders.
